Sheb: Took over case from FTX
Wanted to reach out, let you know we are close, give you a chance to present.

GP: Surprised and alarmed that investigation is still ongoing and almost at conclusion
Members of the FTX prosecution team led us to believe that if Salame resolved case, office would stop investigating Ms. Bond
Also represent Salame, father of her baby
April 28, 2023 – right after seizure, conversation with FTX team – Sassoon, Rohrbach, Kudla, Rehn, Raymond

During that conversation, Danielle reading from set of talking points – noted that Bond’s status had changed, if we reached resolution, office would conclude investigation into Ryan other than SBF stuff

Thought that meant would cease investigating plea
Taken aback, didn’t expect that
Pled guilty in September, significant motivation was having investigation into Ms. Bond conclude

Had been operating under that understanding until message this week
Because of FTX team statements, Salame prejudiced by saying non-SBF conduct not investigated

Bond would not have spoken with government as co-signer
Had a baby together based on Gov’t representation
Shifted focus away from preparing away from potential defense, based on what we have done so far, don’t see criminality
Cognizant that you were not part of those conversations last year
Intend to raise issues up the chain

Sheb: What about May 25 call?

JL: Will check

Sheb: FBI agent on surety interview?

JL: We were aware, not different questions

Sheb: Okay, hear your point. We see it differently. Still see benefit in planning to engage on substance.

JL: Need to talk to client, but what is timing?

Sheb: Within month
